

You are Cordially Invited to Our Scientific Symposium at e-ISICEM 2020

Protecting the Brain in Critically Ill Patients Optimising Sedation and Ensuring Oxygenation

Date and Time: Wednesday, September 16th
18:30 - 19:15 CEST
08:30 - 09:15 PST
11:30 - 12:15 EST

[Please click here to view the Symposium >>](#)

Chairperson

Introduction: The Importance of Brain Function Monitoring in the ICU - improving Outcome and Shortening LOS

Basil Matta, MA, FRCA, FFICM

Consultant in Anaesthesia and Neurotrauma Critical Care
Cambridge University Hospitals Trust
Associate Lecturer, University of Cambridge
Cambridge, United Kingdom
Senior Medical Director (Part-time) - Masimo International

Presenters

Cerebral Oxygenation: Implications for Outcome Delirium, LOS and Mortality

André Denault, MD, PhD, ABIM-CCM, FRCPC, FASE, FCCS

Professor of Anesthesiology and Intensive Care
Department of Anesthesiology, Critical Care Program
Montreal Heart Institute and Centre Hospitalier de l'Université de Montréal
Université de Montréal
Montreal, Quebec, Canada

Sedation in ICU - The Role of Processed EEG in Preventing Over-Sedation in Critically Ill Patients

Frank A. Rasulo, MD

Associate Professor of Anesthesia and Critical Care Medicine
Head of Neuro Critical Care
Department of Anesthesia, Critical Care and Emergency
Spedali Civili University
